### **Introduction**

He was one of the most skillful players from a very young age without having big results until 2011. He burst in to the scene by winning State Singles Title and was once ranked as high as 11 in BAI Ranking in singles and is still one of the good players in Doubles at National level; much of the credit goes to his stint at the Tom's Academy in 2010-11.

### **Playing Style**

He often gets the opponent off guard with his drives and net kill and at his best can hit smash as well as anybody; clearly indicating his capabilities both at the front and the back court. No doubt, he still remains a very dependable doubles player for the state.
