### **Introduction**

Arguably the most naturally talented player Tamil Nadu has ever witnessed, he had tasted success at very young age both at State Level as well as National Level. Given his caliber, his achievements are less than what it was meant to be. Aged 42, he still has a good number of fan following in the State and is one of the very few players from TN who commands respect outside of the State.

### **Playing Style**

He was one of the most Deceptive Stroke makers in the country and was particularly very good in the net. Though he didn't possess a powerful smash, he more than compensated with plenty of variations from the back of the court. Never once he looked out of sorts in his game as well as in his mind.
